More than a skitunnel

Torsby Skidtunnel & Sportcenter offers a wide variety of tracks and trails for biking and running as well as for skiing. We have all types of tracks; short, long, easy, hard, varied terrain, you name it, we got it! Our shortest track is 2.5 km long, but if you want something that is more of a challenge you can try the 25 km long “Hovfjällsturen” or any of our middle distance tracks. In total we have over 50 km maintained ski tracks during the winter including 4.5 km with artificial snow and lighting and 300 km bike paths fore.
