

Murder and wonder machines.....

What a day...

Arriving at Follo Museum in Drøbak you will be met with hot Norwegian Gløgg and a taste of freshly baked bread before you get the story of the murder at Korsegården while sitting in the actual building...

Then it is time for lunch enjoyed at the local Café gallery Teskje in Drøbak. After lunch you may want to include some time to enjoy the idyllic town by the shores of the Oslo fjord.

When leaving Drøbak you stop at Galleri Finsrud where you will find the world's only working Perpetuum mobile.

The multi artist will give us an introduction to art and techniques he uses and maybe a tour of "The World's largest model railroad on 12 square meters".

Welcome!
