

UPPERUD 9:9 HOTEL

Upperud 9:9 was originally built as a silo next to a mill. Today we offer modern accommodation in a genuine industrial building right by the waters of the Dalsland Canal. The rooms are equipped with kitchen & bathroom and have stunning views of the canal. Connected to the building there is a jetty where you can enjoy the long summer nights, go swimming or anchor a boat or canoe.

Upperud 9:9 is located in the heart of Dalsland, surrounded by waterways and forests. The 100 km long Pilgrim Trail passes right by our doorstep, taking you far out in the wilderness. The Pilgrim Trail is one of a number of walking trails around here to explore. Canoeing is really enjoyable on the 250 km long Dalsland Canal – mainly natural lakes connected by short man-made passages. This area is also perfect for cycling, mountain biking or just taking it easy.

You find Upperud 9:9 Hotel approximately 140 km north of Gothenburg. By train from Gothenburg the nearest station to us is Mellerud, about an hour away. From there you can travel by bus, or arrange with us to pick you up.

In our restaurant we serve breakfast and dinner to our hotel guests and on request. We use organic and local produce as much as possible. During the summer season we arrange live music nights.
