

Naturgleder is a small firm that mainly works with consulting assignments within wilderness/outdoors experiences and traveling. We have recently started a gardening project, where we're growing an assortment of vegetables and berries.

We can from 2021 provide you with a Norwegian sæter at Innlandet, that can be booked for overnight stays. The sæter is only an hour drive away from Oslo Airport Gardermoen. The sæter is situated in a scenic cultural landscape, complete with grazing sheep and close proximity to Høversjøen (the Høver sea) that makes for good fishing and canoeing/kayaking opportunities. There are miles of gravel roads perfect for biking, as well as Totenåsen (the Toten hill) which is great for hiking trips. We also offer guided hikes/trips.

The sæter is well situated for some interesting cultural outings, like a trip to the Kistefosmuseum (1,2 hrs away), a trip to the steamboat Skibladner (30min), a visit to the Eidsvoll building where the Norwegian constitution was signed in 1817 (45min) and the Peder Balke Center (40 min).

We offer to buy you some local food from the store that's ready at sætra when you arrive. Sætra is supplied with electricity.
