

# VÄRMLAND MUSEUM

## Local history, photography and art exhibitions of high international repute.

Värmland Museum is one of the most frequently visited county museums in Sweden, with more than 200,000 visitors every year. You can see the local history of Värmland, side by side with internationally renowned art and photographic exhibitions. Värmland Museum is situated right in the heart of central Karlstad on the beautiful Sandgrund with its bathing piers and pleasant walks, next door to the famous Swedish artist, Lars Lerin. About fifteen different photographic and art exhibitions of high international repute are shown each year in two spectacular museum buildings, one of which is a listed building of special architectural and historic interest. You can come here for inspiration or knowledge. We aim to show cultural history and art, conveying new experiences and shedding light on humanity, while illuminating contemporary issues and rendering a broader perspective on our developing society.
