

Our Consitution - Full day activities

Tour suggestion – Norways constitution day and lunch by the lake with sauna.

On this tour we visit Eidsvoll Manor 1814 where the Norwegian constitution was written and signed in 1814. At Eidsvoll 1814 we will take you on a guided tour of this historical place in Norway's history and learn about how Norway became independent and how we got our constitution – today it is one out of 2 constitutions which are still in use as original signed.

Then we head up to Hurdalsjøen Hotel situated by the lake with the same name, the hotel invites us for lunch while we explore the sculptures in the garden, meet the alpacas and other activities

The hotel invites us to try out the sauna on the lake, remember to bring your swimsuit if you are up for it. Bathrobes and towels will be provided.

After lunch we will drive to Trandumskogen – situated close to Oslo Airport – our guide will meet us here and tell us the history of what happened here during WW2. – this is a darker side of the Norwegian history.
